Introducing JAGGAER Pay

A complete and fully managed payments solution enabling enterprise organizations to seamlessly move to modern, safe, and secure payment methods. With JAGGAER Pay, from day one you will:

Eliminate Paper Checks
You will never need to print, sign, or mail another check

Eliminate Manual Processes
Completely eliminate paper-based payment processes, and manual data-entry

Eliminate Supplier Payment Exceptions
Free up the 84% of AP staff's time on tasks related to supplier payments

Begin Generating Revenue
Start earning payment revenue and convert your AP department into a profit center

Seamlessly move payments to modern, safe and secure electronic payment methods

What is AP Payments as a Service?
The lowest-cost, most-secure way to run payment operations

Fully Managed Payment Delivery and Operations
JAGGAER delivers 100% of your payments. You focus on "who" to pay. We determine "how"

High-Touch Supplier Enablement
JAGGAER handles all supplier payment communication including ongoing conversion to electronic payments

Payment Data Management and Security
Account information securely collected, validated, encrypted, and stored, preventing fraudulent activity
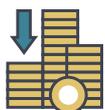

Dynamic Payment Reporting and Analytics
Gain unmatched visibility and control of your payment data in one centralized location for reporting

JAGGAER Pay Delivers Significant Value to Finance Teams

B2B payments are changing, and the shift to electgronic payment methods allows businesses to grow exponentially

Reduce Costs
By eliminating manual work, paper, and preventing errors

Saves Time
By handling all administrative tasks and supplier management

Prevents Fraud
By utilization of digital payments and industry-leading security

Gives Visibility and Control
By providing insights into who is being paid, how much, and by what method

Most CFO's we work with choose JAGGAER Pay because of **time savings, efficiency, and resource.**

JAGGAER | Finexio

Free up to 84% of your AP staff's time on tasks related to supplier payments, so they can focus on what matters most:

MANUAL TASKS AP TEAMS CURRENTLY HANDLE

- Printing, signing paper checks
- Sending payments
- Reconciliation & Posting
- Error management
- Refunds and resends
- Payment questions

- Calling suppliers to verify information
- Updating supplier information
- Educate suppliers on electronic payments

- Manual data entry
- Validating supplier account information
- Data storage & security
- Monitoring for fraudulent payments

- Complicated and time-consuming payment audits
- Manual data manipulation for reporting
- Following up on outstanding payments

- Manual Effort of converting suppliers
- Targeting only high-accepting virtual cards acceptors
- High-cost of service with low ROI

ELIMINATED BY JAGGAER'S CORE AP OPERATIONS SERVICES

- **Fully Managed Payment Delivery & Operations**
- **High-Touch Supplier Enablement**
- **Payment Data Management & Security**
- **Dynamic Payment Reporting & Analytics**
- **Revenue Generating Payments**

Strategic Benefits

01 | Paper-free from day 1 - Immediately take advantage of the modern electronic payments without a lengthy change-management process

02 | Eliminate internal resource time or headcount for processing manual payments

03 | A holistic and sustainable model that adapts to changes in supplier preferences for long-term success for both buyer and supplier

04 | Digital payments and data security protection against payment fraud without investing in a complex and costly process

05 | Unmatched visibility into payments that you never had access to before

How it Works

01 | Payments Approved
Buyer tells JAGGAER Pay who, when and how much to pay

02 | Payments Processed
JAGGAER Pay matches buyer instruction to aggregated network supplier data

03 | Payments Disbursed
JAGGAER Pay identifies and delivers best way to make payment

04 | Payments Settled
JAGGAER Pay transmits remittance advice to supplier

Now that's smarter payments!

JAGGAER is leading the Autonomous Commerce revolution, a self-governing B2B commerce experience between buyers, suppliers, things (IoT), and partners. Over $500 billion worth of goods flows frictionlessly through our Enterprise Commerce Network every year. Leveraging AI and machine learning, our intelligent procurement solutions provide enterprise buyers and suppliers with smart-match recommendations that align buyer needs with supplier capabilities. Our solutions autonomously execute many of the repetitive, behind-the-scenes tasks required to facilitate enterprise commerce. We are Networked, Intelligent, Comprehensive, and Extensible. We are over 1,100 employees strong, all focused on customer success.
